TO: Mayor and Keene City Council

FROM: Robert Kerr

THROUGH: Patricia A. Little, City Clerk

ITEM: 1.

SUBJECT: Robert Kerr - Request to Use City Property - Whitcomb's Mill Road - Filming

COUNCIL ACTION:

In City Council June 1, 2017.

Referred to the Planning, Licenses and Development Committee.

RECOMMENDATION:

ATTACHMENTS:

Description

Communication - Kerr

BACKGROUND:

Robert Kerr is a student at Columbia University School of the Arts. As part of his graduation requirements, Mr. Kerr is looking to film a production entitled "August" in Keene. The scene location is Whitcomb's Mill Road. Filming is anticipated to occur on either June 16th or the 17th.

In City Council June 1, 2017.

Referred to the Planning, Licenses and Development Committee.

5/30/17

Deputy City Clerk

City Council of Keene,

Below are the details for which we are requesting permission regarding the filming of *August*, a Columbia University MFA short film that will shoot in Keene, NH the 16th and 17th of June, 2017:

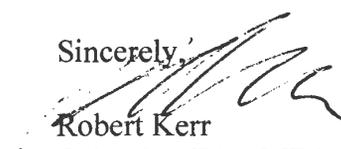

A DJI OSMO 4K Camera and gimbal system will be mounted onto the hood of a personal production vehicle using the DJI OSMO Car Suction Mount. (Diagram of car mount and camera below).

This vehicle will follow and film two bikers at a distance of no less than 30 meters, not exceeding speeds of 15 MPH. The planned route (pictured below) descends Whitcombs Mill Rd. with designated reset positions at both ends of the route. Both bikers will stay on the far right-hand side of the road as they descend.

We will have production assistants wearing high visibility safety vests stationed at both reset positions as well as at the mid point of the route. These production assistants will be on call with each other as well as with the production vehicle to indicate any traffic that that will pass or is following the bikers and camera car. During each shot, the assistant at the midpoint will indicate to the bikers whether it is safe to proceed or whether the take should be cut short to accommodate oncoming traffic.

We thank you for your consideration.

Sincerely,

Robert Kerr

May 30, 2017

To the City Council of Keene, New Hampshire:

I am writing to verify that the film production "August," directed by Robert Kerr and produced by Peter Campbell, is a student film for Columbia University. Mr. Kerr and Mr. Campbell are candidates for a Masters in Fine Arts in Film at Columbia, and this film will count toward their requirements to graduate.

I understand that "August" is filming in Keene, New Hampshire from June 16th to June 19th. Columbia University offers General Liability coverage up to \$1 million with an aggregate of \$2 million and Property coverage up to \$50,000. Cast and crew will additionally be covered by Columbia University's Worker's Compensation policy. Location insurance is also available with a certificate provided upon request.

We very much appreciate you working with our students. Please contact me if you have any further questions or concerns.

Regards,

Soheil Rezayazdi
MFA Film Program Administrator

TO: Planning, Licenses and Development Committee

FROM: Jack Wozmak, Airport Manager

THROUGH: Medard Kopczynski, City Manager

ITEM: 2.

SUBJECT: Adoption of the Airport Master Plan Update - Airport Department

RECOMMENDATION:

Move that the Planning, Licenses and Development Committee recommend the adoption of the Airport Master Plan Update.

ATTACHMENTS:

Description

Presentation to City Council

BACKGROUND:

The Airport has a master plan which gets updated every ten years. The last update was in 2003 and the current update process began several years ago and is now complete. The project is funded through the Airport Improvement Program (AIP) and a state block grant issued by the NH Department of Transportation – Bureau of Aeronautics. The update presents guidelines for the development of Dillant-Hopkins Airport and aligns these goals with the shared funding timelines of the state and federal government. The Plan also incorporates elements of the City’s Comprehensive Master Plan regarding both the development of the airport and environmental sustainability.

Dillant Hopkins Airport Master Plan Update

Ervin Deck
Sr. Aviation Planner
Project Manager

Purpose

2

- Update the 2003 Master Plan
- Develop an Airport Layout Plan

Master Plan

3

- Technical Document
- Systematic Process
 - Inventory
 - Forecast
 - Facility Needs
 - Alternatives
 - Airport Layout Plan
 - Fiscal and Implementation
 - Recommendations

Airport Layout Plan

4

- City's vision looking forward 20 years
- Does not mean it will happen, but
- If not on plan, no federal or state funding
- Airport blueprint

Process

5

- 2+ years in development
- Planning Advisory Committee
 - 15 member PAC
 - Airport Management
 - NHDOT
 - Public
 - 9+ meetings
- Public Information Meetings
 - 3 including tonight

Priorities

- Safety
- Capacity
- Other

Safety

- Obstructions
- Lighting
- Fencing

Capacity

- Aircraft Parking Apron
- Hangars
- Taxiways
- Runway 14-32

Other

- ASOS
- Aircraft Fueling
- Terminal Building

Priority Projects

(Next 5 Years)

10

- Obstructions Runway 20
- Obstructions Runway 02
- Reactive Runway 20 PAPI
- Wildlife Fencing
- Expand Aircraft Apron

Second Tier Projects (Years 5 - 20)

11

- Relocate ASOS
- Terminal Building Improvements
- Expand Parking Apron (Phase II)
- Relocate Fuel Farm
- Extend Taxiway “A”
- Extend Runway 14-32

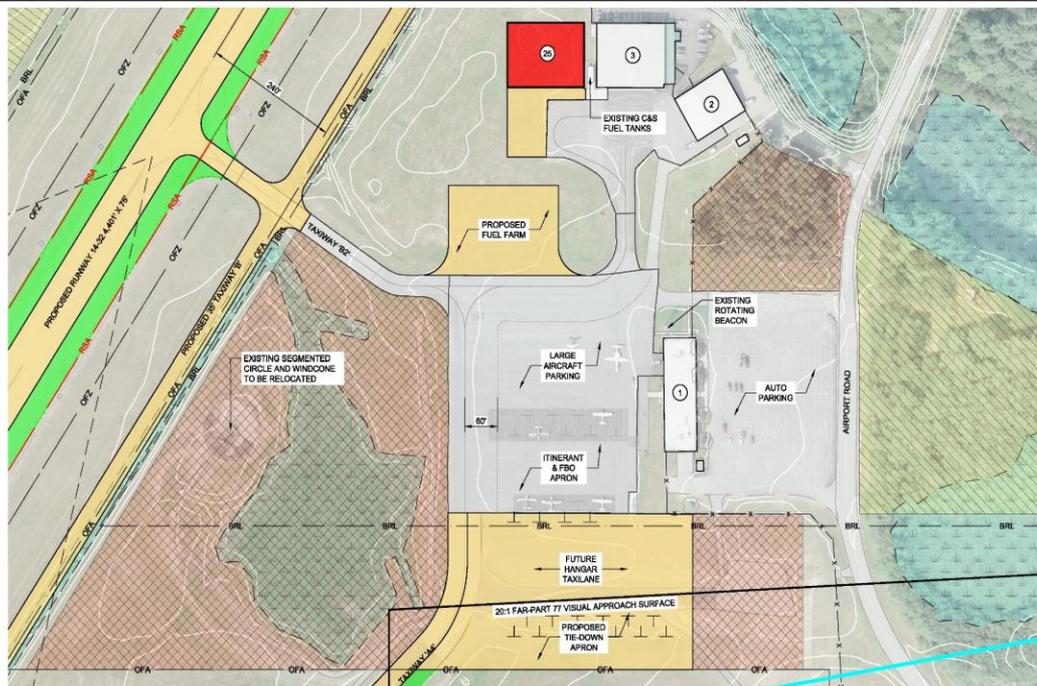

Sustainability

- Future solar farm?
- Identified 80+ acre
- Reserved for “non-aeronautical” use
