

# EXHIBIT 24

# Beaver Brook, Keene, NH Nonpoint Source Pollution Assessment Results

## Legend

- Water Quality Monitoring Pts
  - Beaver Brook
  - Streams
  - Roads
  - Tax Parcels
- NPS Rating**
- Impacted (0.1 - 3.0)
  - Very At Risk (3.1 - 3.9)
  - At Risk (4.0 - 6.0)
  - Good (6.1 - 9.0)

## Area of Interest

Keene, NH

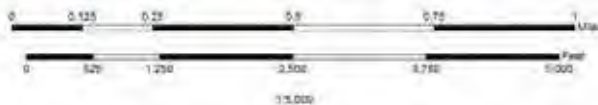

Map by:  
Carol Jenkins  
Affiliated University: New England

Data Sources:  
Tax Parcel, Orthomosaic, and Water Quality Monitoring Pts Data provided by City of Keene, NH. All other layers downloaded from OBAIET ([imggrant.uth.edu](http://imggrant.uth.edu))

Projection:  
NAD\_1983\_StatePlane\_New\_Hampshire\_FIPS\_2600\_Feet

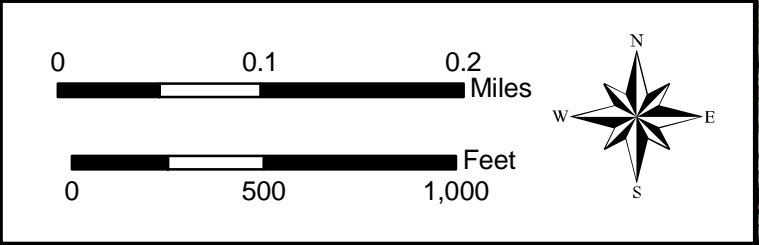

Notes:  
Assessing Parcels were first identified by selecting parcels by their location within 200 feet of Beaver Brook, which was selected and exported as a separate shapefile, Stream and Parcel.shp. The Parcel ID numbers are based on the PID assigned in "shadedland\_parcels.apr". Later, the parcels assessed were extracted from this data and a new field was created to permanently assign Parcel ID numbers for the assessed parcels. Parcels assigned a letter are for road areas owned by the City of Keene or the State DOT. These areas were drawn in and are contained in a separate shapefile (DPV\_Parcels.shp)
