Policy Notes
Meeting: October 27, 2:30 and November 10, 2:30
Present: Kathleen Packard, Bill Stroup, Carl Jacobs, Marti Fiske

The committee went over the incorporated sections for 2 and 4 of the existing policy manual and have a draft ready for the future policy manual proposal. The existing section 4 would now become "behavioral expectations" and 2 would remain "Use of the Library". The old "general policies governing use of premises" would be eliminated. The Library rules of behavior were also incorporated into the new sections. Some sections of 2 were moved to behavioral expectations.

The committee also went over sections 6 and 6.5. These sections included many form differences and larger concept changes were discussed. It was unanimously agreed that section 6.5 would be eliminated and incorporated into 6. Current forms would remain on the website, but not in the working document. Kathleen will be drafting the new section for the working document that will be brought to the trustees when completed.

The committee noted that we are missing an unattended child policy and will be working on that at our next meeting.

Respectfully submitted,

Kathleen Packard
